

# SyncFusion Library

A presentation by:  
Wil van Antwerpen  
Zoom @home, October 22, 2020

# About Antwise

- Antwise offers
  - DataFlex consulting services
  - Components / OSS subscriptions
  - Linux Web Hosting
  - VMware vSphere consulting
  - Vimalin / Vimarun
- VDF Guidance

# What is SyncFusion

- A bit like codejock for web
- <https://www.syncfusion.com/javascript-ui-controls>

# License cost

- Last time I looked:
  - \$ 995 /developer 1st year
  - \$445 /2nd year
- Or FREE (community license)
  - if you don't make over \$1 MILLION /year,
  - Less than 5 developers
- Sign up for an account and check with SyncFusion. You even get support on the community license.

# Current state

- Published now is a wrapper for the Grid control as `csfWebList`
- More coming

# How-to run?

- Download at <https://projects.vdf-guidance.com/projects/syncfusion-library>
- The latest blessed release is always available for download as a zip file.
- HOW TO INSTALL?
  - download zip at files section
  - unzip to a new folder (don't overwrite an old install)
  - Register the webapp in the Studio
  - compile in DF19.0 – DF19.1

# Demo time

- Grouping / collapse/expand
- resizing
- sorting
- Custom toolbar buttons
- Exporting csv/pdf/excel
- Multilingual

# Time's up

- Questions?
